15 April 2001

This bulletin expires 1 year from date of publication.

HOLOCAUST DAYS OF REMEMBRANCE

The Holocaust Days of Remembrance will be observed from 15 through 22 April 2001. The theme of this year's observance is "Remembering the Past for the Sake of the Future."

Commemorative events will be scheduled throughout USAREUR to mark this observance. Leaders should refer to USAREUR Pamphlet 600-21 and encourage participation in these events within mission constraints.

STABILIZATION FOR SOLDIERS WITH HIGH SCHOOL SENIORS

HQDA has approved a new procedure to allow soldiers with family members in high school to remain at their current duty station during the child's senior year.

Soldiers already on assignment instructions with family members who will be high school seniors in schoolyear 2001 to 2002 may request to be stabilized through the end of that school year. Requests must reach the United States Army Personnel Command by 30 May 2001.

Requests beyond the 2001-to-2002 schoolyear should be submitted at least 12 months before the school year begins (for example, if school begins on 2 September, requests must be submitted by 1 September of the student's junior year).

Military Personnel (MILPER) Message 01-135, TAPC-EPC-O, 3 April 2001, subject: Stabilization for Soldiers – High School Seniors (available at <http://perscomnd04.army.mil/milpermsgs.nsf/all+documents/01-135?opendocument>) provides information on submitting requests.

Personnel who need more information should contact their servicing personnel detachment.

MULTINATIONAL SEMINAR

Allocations are available for U.S. Army noncommissioned officers (NCOs) to attend the 4-day, multinational seminar at the Atlantic Academy in Lambrecht, Germany. The seminar will be held 29 May through 1 June 2001. Other seminar attendees include U.S. Air Force NCOs and NCOs from NATO countries.

The seminar covers the political system of the European Union and a comparison of the political, social, economic, and military structures of participating NATO countries. A

fieldtrip to Strasbourg and European institutions is also part of the official program. The seminar will be conducted in English.

Sending units and organizations must pay seminar fees and transportation costs for attendees. The cost for the seminar is 400 deutsche mark per person.

Personnel who need more information on the seminar may contact Mr. Beldermann, DSN 370-8725 or belderma@hq.hqusareur.army.mil.

EYE INJURIES

According to United States Army Eye Injury Reporting System data for fiscal year 2000, over 40 percent of eye injuries reported in Bosnia and Kosovo were related to the use of contact lenses.

AR 40-5 prohibits soldiers from wearing contact lenses during gas-chamber exercises, field training, and combat.

Eye injuries result in lost time on the job, decreased mission readiness, and the potential for permanent vision loss. Commanders will ensure that soldiers wear glasses and leave their contact lenses at home station during field training and deployments.

VISION CONSERVATION AND READINESS PROGRAM

The high cost of eye injuries in dollars and time lost on the job adversely affects the U.S. Army mission and unit readiness. Optimal vision is essential to safety, efficiency, and combat effectiveness. Command support is needed to help prevent eye injuries and ensure optimum visual performance and vision readiness.

The primary mission of the Vision Conservation and Readiness Program is to prevent eye injuries, maximize visual performance, and ensure vision readiness. AR 40-5, AR 385-10, and Technical Bulletin Med 506 prescribe vision-safety requirements and provide guidance on preventing eye injuries. To help prevent eye injuries, commanders, managers, and supervisors will—

► Enforce the use of protective eyewear by all personnel working in eye-hazardous areas.

► Ensure that personnel who are routinely exposed to eye hazards receive required vision testing, training, and required protective eyewear.

➤Ensure that soldiers do not wear contact lenses during gas-chamber exercises, field training, and combat (AR 40-5, para 5-15a(12)).

➤Ensure the vision and optical readiness of all soldiers through annual soldier readiness program predeployment processing.

Appendix A lists USAREUR health facilities where vision-conservation and readiness assistance is available. The Vision Conservation and Readiness Consultant, United States Army Center for Health Promotion and Preventive Medicine – Europe, can provide more information on the Vision Conservation and Readiness Program (486-8545/8113).
